**Highway directions from Reno:** I-80 east to Fernley, (take the first exit) turn right going through town, turn right at light (ALT HWY 95) Thirteen miles to Silver Springs 4 way stop. Continue going straight (south) until you cross the river (approx 7 miles) 1.1 miles after you cross the bridge turn left onto a dirt road (chain installation area on HWY for quick reference ). Follow dirt road about 3/4 miles (look for power lines crossing the road) turn left into Scout Camp.

**Concerns to be aware of (road/trail conditions, i.e. curves, steep grades, hard to find turn-offs, etc.)** \_\_\_ If you are going in the spring beware the river is high and moves fast due to snow melt in the mountains. This is dangerous for dogs and children. The rest of the year this is not a problem. \_\_\_\_\_

**Points of interest:** \_\_\_ When riding east keep an eye out for eagles (we have seen two pairs in this area). Fort Churchill is a couple miles to the west. Nice place to tour. Fort Churchill Park is a nice place to kayak from back to Scout Camp in the early spring. \_\_\_
